

Dear

Thank you for supporting our local Jewish community. Since Hamas committed its terror pogrom on October 7th, 2023, which included the murder of local Ben Mizrachi, our community has felt unsafe. During this time, we are grateful that you have condemned these attacks, shown support for the people and land of Israel, and advocated for the safety of Canada's Jewish community.

While these events are shocking, antisemitism has always been a challenge and, when left unchecked, sadly culminates with these horrifying acts. The local Jewish community has always stood with other racialized and ethnocultural groups at their times of need, because when one community feels unsafe, it compromises the safety of all communities. We ask for your continued support by condemning antisemitism in all its forms and ensuring that resources are given to protect vulnerable communities.

With Gratitude,
